

TRIPLE OFFSET VALVES AJ SERIES
SUBSEA

**Suitable for shallow water applications
 (up to 500 m)**

Body Design	Triple offset, quarter turn valve
Seat type	Metal seated, hard faced, integral design
Material Selection	LTCS, Duplex Stainless Steels, Super Duplex Stainless Steels, Ni Alloy
Seals / Gaskets	Thermoplastics Elastomeric
Design features	No rubbing, no-cavity design Bidirectional/Unidirectional tight shut-off Designed for optimized Cv One-piece stem Lamellar or solid seal ring Anti-blowout device Zero environmental emission packing Intrinsically Antistatic
Special features	NACE Requirement CRA Overlay
End connection	Flanged (RF / RTJ) Wafer Lug Buttwelded ends
Operators	Manual Gear ROV operated gear Electric actuator Hydraulic actuator + ROV Override
Product Range	Size 3" to 30" / DN 80 to DN 750 Class #150 to #600 / PN 10 to PN 100
